# Driving Performance Through Chemical Innovation.

Established in 1995, Dhruv Group has evolved from a single manufacturing unit into a trusted name in bromine and chlorine-based chemistry.

Today, the group specializes in the production of intermediates, fine chemicals, and specialty compounds, serving industries such as pharmaceuticals, agrochemicals, and cosmetics across domestic and international markets.

## Group of Companies

Incorporated in 2011, has continually grown and evolved into one of the most reliable and quality suppliers of specialty and fine chemicals. The company expanded its operations in Dahej in 2019, focusing on the recovery of liquid Bromine under GPCB Rule 9, with an initial production capacity of 100 MT of high-quality liquid Bromine per month. Since then, the company has significantly increased its capacity and now boasts a planned production capacity of over 1000 MT per month for fine chemicals and intermediates. Additionally, Dhruv Remedies Private Limited offers high-end contract manufacturing and research facilities, further solidifying its position as an industry leader

Leading organization, specializing in Bromine & Chlorine Derivatives, Intermediates, Fine Chemicals & Speciality Chemicals for APIs, Agrochemical, Cosmetic Industries with capacity of 300 MT Per Month since 1995. As a manufacturer, our objective is to build confidence among customers by ensuring regular and reliable supplies at competitive prices with consistent quality, while fully complying with their technical requirements.

started in the year 2019 with state of the art manufacturing and R&D facility at GIDC, Chhatral Gujarat. The company has manufacturing facility of more than 600 MT of Bromine & Chlorine Derivatives, Intermediates, Fine Chemicals & Speciality Chemicals Per Month for APIs, Agrochemical, Cosmetic Industries.

## Research & Development

Advanced in-house R&D facility focused on custom synthesis, process development, and innovation, enabling tailored solutions for evolving industry needs.

## Vision

To be a trusted leader in bromine-based chemical solutions, defined by quality, reliability, and innovation.

## Core Commitment

We operate with a strong focus on product quality, process excellence, and environmental responsibility. Through continuous improvement, strict safety standards, and responsible resource management, we ensure sustainable and consistent performance across all operations.

OUR EXPERTIES: BROMINATION, CHLORINATION, GRIGNARD REACTION, REDUCTION, OXIDATION, FREE - RADICAL REACTION, HIGH TEMPERATURE - HIGH PRESSURE REACTION, HIGH VACUUM DISTILLATION, FRACTIONAL DISTILLATION, OLFACTIVE DISTILATION

# Quality & Compliance

Quality is at the core of our operations. Our integrated Quality Assurance (QA) and Quality Control (QC) systems ensure that every product meets the highest standards of safety, reliability, and performance.

Through structured processes, regular audits, and continuous improvement, quality is embedded at every stage from planning to final delivery. Rigorous testing and verification further ensure consistency and defect free output.

**Quality is not just a standard.  
it is our commitment.**

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018 & GMP CERTIFIED

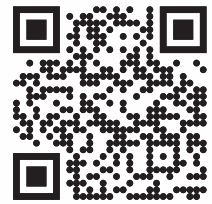

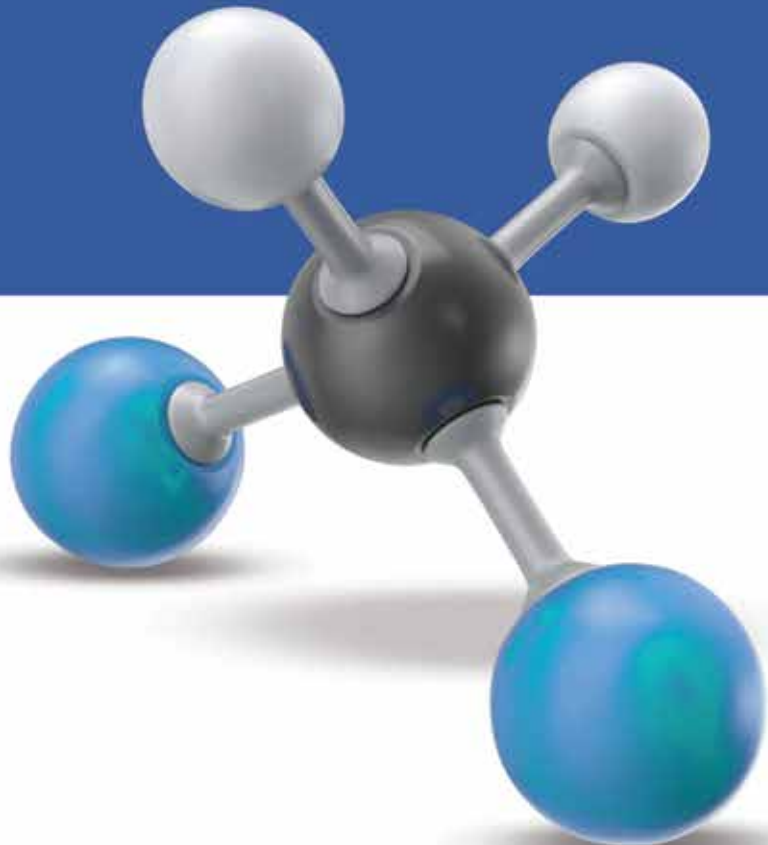

# Capabilities & Infrastructure

We offer contract manufacturing and technology transfer for the development and scale-up of intermediates and fine chemicals, supported by a fully integrated, state-of-the-art R&D facility and an experienced team capable of handling complex molecules.

- 10 KL, 8 KL, 6.3 KL, 5 KL, 3 KL, 1 KL Glass Lined Reactors
- 3 KL, 5 KL, 8 KL, 10 KL, 12 KL SS Reactors
- 8 KL Glass Lined ISO Tanks for Bromine Storage
- IBR Boilers
- Hythem Boilers
- Cooling Towers
- Chiller Plant
- Hi Vacuum Distillation Facility
- Dryer Facility / Centrifuge
- Dry HCl Gas / HBr Gas Facility
- SS Agitated Nutsche Filter Dryer
- Efficient Scrubbing System
- 225 KVA and 125 KVA Electric Generators
- HDPE Storage Tanks
- Effluent Treatment Plant
- Pilot Plant
- Gas Chromatography
- HPLC
- Karl Fischer
- Fully Equipped R&D
